---

Honorable Members of the Planning Commission:

I am writing to request that the Planning Commission either defer the item until a community meeting can be held or the matter be forwarded to the Historic Preservation Commission for review. The crux of the matter and the bulk of the concerns reflected by our neighbors involves the impact on historic Floral Park and an assessment of whether or not the proposed structure is consistent with the historic character and nature of both the subject property and surrounding properties. Thank you for your kind consideration.

Sincerely,  
Mark Rothenberg  
2042 N Ross Street
